

A Private Islamic School
Serving Preschool thru 7th Grade

Open the door ...

to your child's Future.

We nurture strong minds and
strong spirits.

Our Mission

To provide students with a challenging and stimulating environment that will nurture their natural desire to learn.

To instill the desire to implement Islam in Allah's service.

To become truly God-fearing individuals whose main concern is improving their lives and the lives of those around them.

In Arabic, *mutanafisun* means *strivers*. We're *serious* about living up to our name.

We take academics seriously.

Last year our classes tested 2 to 5 levels above their own grades in a national standardized test.*

We keep our classes small.

On average our *student to teacher ratio* is **8:1**.

We hire great teachers.

Our dedicated teachers hold degrees in Education, Computer Science, Islamic Studies, Sociology, Biology, Business and Medicine. Each bring their own valued contribution to the Mutanafisun family.

We accent Arabic, Qur'an & Islamic Studies.

All three will be a regular, daily part of your child's schedule. Our Arabic teachers are native speakers with 10 years of teaching experience. Our Qur'an and Islamic Studies teachers include a *hafitha* and graduates of Islamic Studies programs.

Reading, Writing & Critical Thinking

Students' linguistic skills are exercised in Language Arts and further developed, cross-curricularly, thru research, oral presentation and critical writing activities. Given their importance in a child's academic career, foundational language tools are taught only by native English speakers from the U.S., Canada and Great Britain.

Our Programs

Preschool and Kindergarten (ages 3 - 5)

Our fun and friendly Preschool and Kindergarten classes nurture children's natural desire for learning in an Islamic setting. Children explore phonics, number concepts, Qur'an, science, Islamic studies, arts & crafts,

and song & movement. The DISTAR program for reading readiness is introduced in K1, allowing them to enter into K2 with a strong reading foundation.

Elementary School

Students enjoy a rich and stimulating learning experience in an encouraging, disciplined and secure Islamic environment. Students are motivated to high standards of excellence. Harcourt and McGraw-Hill Programs give the students a strong academic base. English, Math, Science, and Social Studies are taught, as well as the Islamic curriculum. Weekly enrichment in the Visual Arts, Gym and Computers round out the children's learning experience.

Middle School

Our expanded middle school program challenges students to think logically and critically while building on their Islamic knowledge to frame the world. They are encouraged to work together, take responsibility, and have the courage to achieve. The familiar Prentice Hall curriculum for English, math, and science is maintained, while new subjects are introduced like health and home economics.

Arabic, Qur'an & Islamic Studies Programs

Arabic: Our Arabic program focuses on the four strands of language, reading, writing, listening, and speaking. The Jordanian curriculum gives a strong progressive base.

Qur'an: All students engage in an extensive Qur'an program four days a week. They memorize at least a half *juz* each school year while learning valuable vocabulary and Qur'anic comprehension. This *insha Allah* will give the students a strong valuable foundation and love for the Book of Allah.

Our regular course schedule incorporates:

- Arabic
- English & Language Arts
- Islamic Studies
- Math
- Qur'an
- Science
- Social Studies
- Art, Gym & Computers (weekly)
